

Profile Cladding and Sheeting

Green Contract Services operate a dedicated and highly skilled team of operatives and management capable to undertake both small and large cladding projects, as well as all of your day to day maintenance requirements.

We are able to undertake projects on either a main contractor or sub contractor basis and our scope of works include :-

- Profile Roof and Vertical Cladding
- Oversheeting
- Cladding of Vessels and Structures
- Plygene guttering system

We use a variety of materials to undertake the above including Plastisol coated steel, cement profile sheeting, composite sheeting, built up systems including liner systems to the interior, PVC or metal rainwater products and also a wide range of industrial guttering systems all sourced from all of the major manufacturers.
